

## **Myfox keeps revolutionizing Home Security and announces On-Demand Professional Home Monitoring and Emergency Security Services at CES 2016**

*Leader in home security, Myfox, showcases DIY smart products and services from January 6-9, 2016 at the International Consumer Electronics Show in Las Vegas (Sands Booth 70739)*

**LAS VEGAS – Jan. 6, 2016** – For 10 years, Myfox has revolutionized the Home Security category with unique solutions that make leaving in a safer home a simple and seamless experience.

With the successful launch of the highly awarded Myfox Home Alarm and Security Camera in Europe and North America, the company answered fundamental security needs, like preventing break-ins before they happen and absolute privacy protection.

***Myfox today announces the addition of ON-DEMAND 24/7 professional monitoring and Emergency security guard services, to its suite of smart home security solutions.***

By partnering with local best-in-industry operators, Myfox wants to allow families to choose whether they rely on their trusted community or add-on professional services to help them and their community make their home an even safer place.

“In Home Security as in all spaces, today’s customers expect to get at any time the level service they actually need,” said Jean-Marc Prunet, CEO, Myfox. “Myfox is designing these services to answer the customer legitimate expectations: be able to get the most reliable professional services at a reasonable price, without any ties nor commitments.”

Cost effective compared to other professional monitoring offers, those services have no contract commitment and can be added or subtracted on a monthly basis, simply in one click through the Myfox app.

### **About Myfox**

Since 2005, Myfox has been committed to redefining home security with simple, unique solutions designed to safeguard families, their homes and possessions. Myfox is the developer of one of the world's first connected home security systems (2009) and today offers true security and peace of mind through proactive deterrence and its award-winning IntelliTAG™ sensor. Myfox was founded by experts from a leading French security lock company and is located in Labège, France and Campbell, California. Myfox is a 2015 International CES Innovation Awards Honoree, and the recipient of an iF Design Award 2015 and 2015 Red Dot Design Award.
